GitHub: <https://github.com/nashiwa>

Analytical and collaborative professional with experience supporting digitalization projects and working closely with stakeholders to understand requirements and develop practical solutions. Strong in communication, problem-solving, and structured working, with a hands-on mindset and the ability to adapt quickly in dynamic environments.

WORK EXPERIENCE

E.ON Energy Deutschland

Working Student Data and AI Platform

Essen, Deutschland

March 2025 – Present

- Built Power Automate flows to automate internal request/approval processes and reduce manual follow-ups.
- Developed a Canvas Power App to capture requests, validate inputs, and route data to back-end systems (e.g., Dataverse/SharePoint).
- Integrated Microsoft Teams notifications/approvals and maintained clear documentation for stakeholders.
- Collaborated with colleagues to refine requirements, troubleshoot errors, and improve solutions iteratively.

IAV GmbH Ingenieurgesellschaft Auto und Verkehr

Internship Infotainment Systems & Function

Heimsheim, Deutschland

January 2025 – February 2025

- Extended existing scripts for ECU/control-unit processes.
- Supported commissioning/setup of smartphones for test/validation vehicles.
- Expanded and maintained technical documentation in Confluence.

ALDI Einkauf SE & Co. oHG

Working Student Data Analyst

Essen, Deutschland

April 2022 – November 2022

- Spearheaded data digitization and organization using Sievo, enhancing operational efficiency.
- Streamlined data processes through meticulous entry, categorization, and rigorous verification to ensure accuracy.
- Contributed to digital transformation initiatives by managing complex datasets and upholding data quality standards.
- Demonstrated proficiency in data management and analysis using Microsoft Excel, Microsoft Word, and Microsoft Power BI.

Mavuno Technology GmbH

Internship in Data Model and Remote Sensing

Berlin, Deutschland

April 2021 – July 2021

- Applied data science expertise in agricultural technology to analyze and engineer data for improving smallholder farmers' yields.
- Utilized satellite imagery and machine learning to support feature engineering and model training, boosting harvest outcomes.
- Engaged analytical skills for a community platform, driving data-driven insights in agriculture with a significant impact.
- Leveraged advanced Python skills for data analysis, cleaning, and model training, focusing on agricultural enhancements.

EDUCATION

TECHNICAL UNIVERSITY OF CHEMNITZ

Master of Science in Web Engineering

Chemnitz, Deutschland

Present

- Course Overview: Software Engineering, Web Technologies, Database Management System and Technic, and Cloud/Distributed Systems

UNIVERSITY OF DUISBURG-ESSEN

Bachelor of Science in Computer Engineering

Duisburg, Deutschland

Graduated February 2024

- Major: Software Engineering
- Course Overview: Data Structures and Algorithms, Software Technology, Database Management System, Logical Design and Digital Systems, Mathematics and Physics

UNIVERSITY PROJECT EXPERIENCE

A TOOL FOR THE EFFICIENT EVALUATION OF BAYESIAN NETWORKS

September 2023- December 2023

- **Algorithm Implementation:** Implemented Greedy Degree and Fill-In algorithms in Python to simplify complex Bayesian networks.
- **Performance Analysis:** Conducted comparative analysis of algorithmic efficiency, demonstrating optimization in processing time for large-scale networks.

COMPUTER SCIENCE AND APPLIED COGNITIVE SCIENCE

October 2020- January 2021

Web App Development: "carshare" || GitHub

- **Full-Stack Development:** Designed and Implemented a web-based car-sharing platform using Python (Flask), DB2 and Bootstrap.
- **Database design:** Engineered the database schema to handle user bookings, vehicle availability, and transaction history.

ADDITIONAL

Technical Skills:

- **Automation:** Microsoft Power Platform (Power Apps (Canvas), Power Automate), REST APIs.
- **Programming/Web:** Python (Flask), JavaScript, HTML/CSS, Angular, AutoIt.
- **Data & Databases:** Power BI, SQL (MySQL/PostgreSQL/DB2).
- **Tools:** Git (GitHub), Jira, Confluence, SourceTree, Docker.

Languages:

- **German:** Working proficiency(B2)
- **English:** Fluent
- **Bengali:** Native

ACTIVITIES

VOLUNTEER (LEADER), RED CRESCENT SOCIETY

Bogra, Bangladesh
January 2009 – December 2020

- Blood donation management.
- Promoted friendship between schools.
